Military Expert Says Big Battle Soon To Close

For Many Days Both Armies Have Fought With Unprecedented Fury; Along Enormous Battle Front; Human Endurance Has Arrived at the Point Where There Will Necessarily Be a Break

REPORTS FROM CENTER ARE OF ALLIES' GAIN

Along Their Own Left Wing, Where This Advance Has Been Made After Repulsing Successive Sorties, Assaults and Charges Made By Germans In a Vain Effort to Break Through the Encompassing Line of Troops—Teutons Must Be Almost Exhausted By This Time.

(ASSOCIATED PRESS TELEGRAM)

Paris, Oct. 2.—The laconic statements of the war department give but little idea of the furious battle which is being waged these days in the north of France in pursuance of the effort the great body of Germans is making to force the allies line. The left continues to be the storm center and from there the word is that the English and French continue to gain.

"Whatever the Germans seek and whatever are their hopes it appears necessary that the terminable battle of the Aisne must soon have an end," says Lieutenant Col. Roussel, the military critic of the Petit Parisien commenting on the two last official communications.

"The two armies," says Roussel, "have fought for many days with fury on an enormous front, but while we have made progress daily upon two wings, to the north of the river Somme and in the south of Wevre, the army of the enemy is exhausting itself in vain efforts to check our advance, after having uselessly tried to break through somewhere."

"This situation even though it can still last some time, must inevitably end by the definite retreat of our adversary. The besieged in any line, the experience of battles teaches one, cannot indefinitely preserve the defensive."

The council of revision is preparing to hold sessions to examine the large class of exempt from army service and those heretofore physically unfit for service who may now be found able to join the army.

FRENCH REPORT CONSISTENT GAINS

(ASSOCIATED PRESS TELEGRAM)

Paris, Oct. 2.—An official statement issued by the war office this afternoon says that terrific fighting continues incessantly near Roye where the Germans have been strongly reinforced.

The statement follows: "On our left wing the battle continues with terrific fighting, notably in the region of Roye where the Germans appear to have concentrated important reinforcements. The action extends more and more toward the north."

"The front of the battle line is now extended into the region to the south of Arras."

"Upon the Meuse the Germans attempted at night to throw a bridge across the river near St. Mihiel. The bridge was destroyed by our guns."

"In the Wevre district our offensive continues and progresses step by step notably in the region between Aprement and St. Mihiel."

"On the remainder of the front there have been attempted only partial operations here and there."

2,000 RUSSIAN OFFICERS CAPTURED

(ASSOCIATED PRESS TELEGRAM)

Berlin, Oct. 2.—(By wireless telegraphy to Sayville, L. I.)—A statement given out in Berlin says that there are about 2000 Russian officers, including eighteen generals, at present being held as prisoners of war in the various camps in Germany.

HINDENBURG TO DEFEND CRACOW

(ASSOCIATED PRESS TELEGRAM)

London, Oct. 2.—The Exchange Telegraph company has given out a dispatch from its Vienna correspondent sent by way of Rome, saying that General von Hindenburg, the German commander who has been active against the Russians on the East Prussian frontier has been appointed to take command of the defense at Cracow.

FIRST MILITARY EXECUTION IN FRANCE.

Bordeaux, Oct. 2.—(1:05 P. M.)—Pierre Nasica was put to death today for "military reasons." It was the first execution under military law at the temporary capital.

Nasica faced the end bravely. As he stepped from the automobile patrol wagon that brought him into the Arlat parade ground, the condemned man was rolling a cigarette, which he smoked while he listened to the reading of his sentence. Then he shook hands with the chaplain and, stepping briskly to the execution post, folded his arms and looked straight at the firing squad. He refused to have his eyes bandaged.

At a sharp command a volley sounded. Nasica sank to his knees dead. Detachments from all the regiments of the Bordeaux garrison witnessed the execution and when it was over defiled past the dead body.

Doctors Urging Emperor of Austria Not to Visit More Hospitals, Fearing Effect

(ASSOCIATED PRESS TELEGRAM)

Rome, Oct. 2, Via Paris.—A story has reached Rome from Vienna describing a visit paid by Emperor Francis Joseph to a local hospital in the course of which his majesty spoke to everybody in the institution. The Emperor's doctors are now urging him to snare himself and not to visit the hospitals filled with wounded as they fear the effect of emotion on a man of such advanced years.

It is declared that the Emperor was greatly fatigued after an inspection of the Red Cross hospital in a girl's school in the Hapsburgs. He insisted on seeing each wounded man and addressing him in his mother tongue, German, Hungarian, Polish, Slav, Bohemian or Italian, as the case might be.

Furthermore his majesty insisted on speaking personally to every member of the organization. These included the Archduchess Marie Theresa, who is acting as a nurse under the name of Sister Michaelis, Baroness Beck, Countess Forgach, Baroness Puffer, Baroness Biederth and Countess Postelsky. The three last mentioned women are in charge of the hospital kitchen and the emperor did not fail to inspect this part of the establishment also.

President Wilson Indorses Gov. Cox's Administration

Washington, Oct. 2.—President Wilson wrote to Representative White of Ohio today indorsing the administration of Governor Cox and the work of the Democratic congressional delegation from Ohio.

"Thank you sincerely for sending me a copy of the legislative handbook which is being submitted to the voters of Ohio," the president wrote. "It is certainly a record of notable achievement. Governor Cox has carried out with extraordinary spirit and success the program of reforms laid down in the platform of the party in the state and so has illustrated once more the feeling of the best public men that the promises upon which one seeks election constitute their mandate from the people."

Southern Division of German Army Has Now Joined With the Austrians At Cracow; Decisive Battle Expected

(ASSOCIATED PRESS TELEGRAM)

Petrograd, Oct. 2.—Via London, Oct. 2.—It is the opinion of observers here who judge the situation from information in Petrograd, that as a result of the recent fighting on the Russo-German frontier including the unsuccessful attempts of the Germans to cross the Niemen river, the German positions are suffering from the efforts to concentrate troops from four directions on the south-east Polish border, where a decisive battle is expected.

The north division of the German army landed between Memel, in east Prussia and Palangen in Russia, but proceeded no further than Rossyeni, in the province of Kovna. The army from the province of Suwalki, re-

pulsed at Druskenki, on the left bank of the river Niemen, is now attempting to cross this river at Gretch, where a big battle is now in progress. It is evidently the intention of this army to flank the Russians under General Ruzsky. A third army is trying to proceed from Neidenburg in East Prussia, southeast in the direction of Warsaw, but apparently without success. Simultaneously the main German forces, starting from Posen, are proceeding eastward with Cracow as their objective.

The southern division of the German army already has joined with the Austrians at Cracow. The Russians general staff report of operations against the Germans

was received here today by Colonel Golejewski military attaché at the Russian embassy.

It adds that in the western district of provinces of Piotrkow and Kielec, the large German forces being concentrated there are composed chiefly of army corps brought over from France.

"The operations of the Germans in Russian territory have demonstrated their tendency to keep almost exclusively by the improved highways," says the dispatch.

The German artillery and supply columns seem helpless in the mud of ordinary country roads. German batteries got hopelessly stuck on the very first day of their advance into the province of Kalisz.

WAR TAX BILL IS DISCUSSED IN THE SENATE

(ASSOCIATED PRESS TELEGRAM)

Washington, Oct. 2.—The senate finance committee today took up for consideration the war revenue bill as prepared by its sub-committee, the details of which had been left to it to work out. Many suggestions for proposed changes in the bill had been under discussion by the sub-committee.

As laid before the full committee, the bill does not provide a tax on gasoline, the sub-committee voting to eliminate it. Instead it was decided to substitute a tax of 25 cents per horse power on automobiles, and a selling tax on manufacturers of \$1 per horse power. It is figured that this tax will bring in an annual revenue of \$16,000,000. Numerous protests against a tax on gasoline had been lodged with the committee.

The National Association of Dryers and Cleaners of America asserted that in the event the proposed levy became a part of the law the dry cleaning industry would either have to increase charges or add to their annual expense of conducting business.

Elimination of the proposed tax of \$2,000 on bank capital and surplus in the war revenue bill as it passed the house, and substituting a stamp tax of 2 cents each on checks, drafts and other commercial paper not included in the original bill, was recommended today by the Democratic senators working on that section. All Democrats of the Senate finance committee met today to consider reports from the sub-committees. Chairman Simmons said an effort would be made to agree upon all changes by tonight.

700,000 PERSONS NOW IN BRUSSELS FACE STARVATION.

(ASSOCIATED PRESS TELEGRAM)

London, Oct. 2.—Seven hundred thousand persons in Brussels are facing starvation, according to Hugh Gibson, the secretary of the American embassy there, who is now in this city. The supply of flour in the Belgian capital will be exhausted today, and other staples are virtually all consumed. The last apportionment of flour to the citizens of Brussels will be given out this afternoon.

Efforts to get food in from Antwerp have failed. In so much as Brussels is in charge of the Germans it is in effect German territory.

FRENCH PAPERS 25 CENTS A COPY IN BRUSSELS

Rome, via Paris, Oct. 2.—Reports from Berlin and particulars of the discussion between General Von der Goltz, the German governor of Belgium and the commander Max of Brussels.

Von der Goltz ordered the burgomaster to remove the Belgian flags from the public buildings and Max published a manifesto, which explained to the population the necessity to comply before forced.

Von der Goltz was furious and let it be known that nobody was entitled to publish a manifesto except himself. He ordered that all Max's manifestos be covered with white paper, but the next morning revealed that all the covering sheets had been obliterated and were thereby rendered transparent.

GERMANS HASTEN TO CONCENTRATE MEN IN RUSSIA

(ASSOCIATED PRESS TELEGRAM)

London, Oct. 2.—The Petrograd correspondent of the Times sends this comment on the operations in the eastern war theater:

"Colonel Shumisky, the military critic, says that the Germans are hastening to concentrate a mass of troops between Breslau and Cracow in order to advance on the right bank of the Vistula and thus compel the Russians to either evacuate Galicia or to accept a decisive battle."

"The Germans are displaying an inordinate appetite. Not content with undertaking a decisive engagement in Silesia, they are trying a siege at Ossowetz at the other end of the strategic front."

"Evidently they are confident of success at the battle in Silesia as they are preparing a route across the river Niemen. In any case their attempt to carry out this new and grandiose scheme will lead to a swift denouement."

Greatest Battle of War Expected Near Cracow Between 2 1-2 Million

German Emperor Is Himself Present in East Prussia, According to Best Defined Reports From Petrograd, and From Thence Also Come Rumors That Germans Are Driven Back

ARRIVAL OF THE INDIAN TROOPS STIRS ENGLAND

And Proves to the World the Loyalty of These Soldiers, Which Had Been Subject of at Least, Conjecture—Cautious Tone of Official Statements Indicate Battle of the Aisne is Still Undecided, But Reports Seem to Show German Right Wing Has Been Bent.

The turning movement of the allied armies in northern France has brought the extreme of their left wing within about 30 miles of the Belgian frontier.

An official statement issued by the French war office at 3 o'clock this afternoon says that part of the battle line stretching generally north and south has been extended north to a point south of Arras. This line on which the allies are attempting to envelope the German right wing under General von Kluck has been pushed gradually toward the Belgian border as the Germans widened their front in defense until it extends some 55 miles from the angle that rests on Tracy-le-Mont.

Terrific fighting continues on the allies left wing according to the Paris statement, the most severe struggle being the region of Roye, a town 26 miles east of Amiens and about midway on this battle line. Here the Germans have concentrated the strong fortress probably with the purpose of breaking through the front of the allies and isolating their forces to the north.

The Paris statement adds that the Germans attempted to bridge the Meuse near St. Mihiel but their pontoons were destroyed. French claims of slight progress in the Wevre district are recorded as minor engagements at various points on the front extending east and west.

In a statement received by wireless from Berlin the German headquarters announced that the great battle in France remains undecided. The Germans with their heavy artillery are hammering the position of the allies at many points. The latter were repulsed in their attempts to break the German lines. The German statement says that the heaviest losses have been in the Argonne region.

A Petrograd correspondent says that the Germans from four points are attempting to concentrate on southern Russian Poland where a decisive battle is expected.

Interest in the attitude of Bulgaria is revived by a despatch from Rome saying that all Bulgarian army officers in Italy and Switzerland have been ordered home at once.

The French minister of finance declares that the financial situation of France on Oct. 1, was entirely satisfactory.

A despatch from Venice says that a Franco-British squadron has begun operations against Pola, the chief naval station of Austria-Hungary.

Despatches from London indicate that the expected battle between the Russians and the allied army of Germany and Austria at Cracow has begun.

The Idea Nazionale of Rome, the nationalist party organ, declares that the minister of foreign affairs, Marquis di San Giuliano who is reputed to be opposed to Italy entering the conflict has resigned from the cabinet. The most recent advices from Belgium report that the German attack upon Antwerp continues against a stubborn resistance.

A Montenegro official report says that the attack on Sarajevo capital of the Austrian province of Bosnia has begun. Earlier advices from Nish, Serbia, said that the Serbian war office thought an attempt to take the city would be unadvisable.

(ASSOCIATED PRESS TELEGRAM)

London, Oct. 2.—10:20 a. m.—Though all reports seem to agree that the German right in France has been bent back, the cautious tone of the brief official statements indicate that the battle of the Aisne is far from decided and the British public, showing the patience that has characterized their demeanor since the outbreak of hostilities, find a sentimental stimulus in the safe arrival of the fine Indian contingent on French soil and the bull terrier-like resistance of the Antwerpians, who.

Reinforcements Were Pushed Upon Von Kluck by Berlin Staff; Commissariat Failed

(ASSOCIATED PRESS TELEGRAM)

London, Oct. 2.—A correspondent of the Central News at Calais, who has returned to that city from a tour in the vicinity of the allies left wing says:

"Without disclosing military secrets I can say that I have seen many things to remove any misgiving as to the outcome of the battle. The moment is near when the curtain will be lifted on the greatest drama ever seen in war."

"The position of the German right wing on Wednesday was such that a portion lying between Langens and Chaulnes was in extreme danger. Above Chaulnes the German lines which a few days ago faced westward are now facing northwest, and have been bent back on the line of Chaulnes, Cambrai and Valenciennes."

On Sunday a German patrol was captured near Chaulnes. The fate of the Germans was due to a shortage of horses. The men said that they had had nothing to eat for some days. They belonged to General von Kluck's command.

"It has been apparent throughout that General Von Kluck's right was made more precarious by the crowding on him of reinforcements from the center and left, by the German general staff, his commissariat failed."

Entire Companies Exterminated By Deadly Machine Gun Fire

(ASSOCIATED PRESS TELEGRAM)

London, Oct. 2.—"The Germans have suffered heavily everywhere under the well-directed machine gun fire of the Belgians," according to a statement cabled from Antwerp by the correspondent of the Central News. "At the Waere and St. Catherine forts alone (outside of Antwerp) the German dead may be counted by the thousands. At several points the corpses lie in heaps. Entire companies have been exterminated, while the other troops were driven back at the point of the bayonet."

CRUISER'S GUNS
SANK SHIP, BUT
CREW WAS SAVED

(Associated Press Telegram.)
New York, October 2.—First hand
tells of the sinking of the Houston
the steamer Hyades (British) outside
Pernambuco on August 15 by the Ger-
man cruiser Dresden, reached New
York today, with the arrival here of
the steamer Hylas from Liverpool.
Among the crew of the Hylas were
several sailors who had been aboard
the Hyades when she was captured by
the Dresden.
These sailors said that while the
Hyades was in port at Pernambuco
the time of her departure was made
known to the Dresden which was
awaiting outside although out of
sight. When the Hyades reached the
open sea she was stopped by the Dres-
den. A prize crew was sent aboard and
the Hyades crew taken off. After the
prize crew had removed from the
Hyades what they thought most de-
sirable the Dresden's guns sent the
Hyades to the bottom.

GREATEST

(Continued from Page 1.)
headed by their king, seek to check
the German besiegers.
Whether two forts have fallen
near Antwerp as the Germans insist
or whether the Belgians have so far
repulsed the artillery onslaught, is a
matter of conjecture here.
From the east through various
sources comes news of the Russians
assault on Cracow and its vicinity,
where two and a half million Ger-
mans and Austrians are said to be
concentrated. So many conflicting
reports have been received concern-
ing the Russian advance through
Galicia however that the public is
inclined to await further details.
The London papers both editorial-
ly and in their news columns, em-
phasized with pictures, make feature
of landing the Indian troops and
congratulate the war office on the
successful feat of moving many
transporters from India without a
single loss. Editorially the press
emphasizes the spirit of the Indian
which answers for all they say, all
foreign critics who maintained that
in times of stress the Indians would
prove unfaithful.
Only guesses can be hazarded on
the strength of the Indian forces and
their disposition but of course, what-
ever has been done has taken place
long before the censor lifted the
veil.
Whether the allies or the Germans
hold St. Mihiel between Verdun and
Toul, is still undisclosed by the of-
ficial statement from either side, nor
is the situation around the heights
of Roye, on the French left, clearly
defined.
Last night the official Berlin com-
munication said that the heights of
Roye were taken on September 30.
This was preceded by the French
official communication saying that
violent fighting there had resulted
in favor of the French. The London
papers today insist that the cryptic
wording of the German statement is
tantamount to an admission that
Roye had been taken by the allies.
However, this is a matter of infer-
ence only.
If the battle of Cracow is in full
swing then it is unquestionably one
of the greatest struggles of this war
and possibly the forerunner of even
more colossal engagements which
will rage in Silesia.
Nothing definite has been heard in
the last 24 hours of the where-
abouts of the German emperor but
Petrograd despatches says he is un-
doubtedly present at the engagement
in East Prussia where the Russians
insist, the German troops have met
reverses and are being driven back.
The plight of the Belgians as an
incident of the bombardment of Ant-
werp. Termonde and other points is
becoming even more pitiable than it
was after the first advance of the
Germans through their country.
Doubtless within a short time Lon-
don will again be the haven of thou-
sands of homeless, penniless and hy-
sterical refugees.
No confirmation has been received
of the report that the allied fleet
has begun operations before Pola,
the chief Austrian naval base.

FIERCE

ENGAGEMENT RESULTS IN RUSSIAN VICTORY, AND GERMAN RETREAT TOWARD NORTH
According to Longest Official State-
ment Yet Issued From
Petrograd.
(Associated Press Telegram.)
Petrograd, Oct. 2.—The general
staff has given out the following of-
ficial communication:
"The Russian troops have contin-
ued to repulse the enemy from the
boundary of the governments of Su-
walki and Lomza. The engagement
has been very fierce west of Synho.
"The German troops that were at-
tacking Osovetz are retreating hasty-
ly to the north. Considerable
forces of the enemy, of which the
bulk arrived from the west are con-
centrating in the districts west of the
governments of Piotrkow and Kielce.
"The Russian cavalry and van-
guard are reconnoitering energetically
through all that region, impeding
through vigorous attacks the move-
ment of the enemy. The Germans
always endeavor to use the highways
in Russian territory because the
other roads, being rough, paralyze
their artillery trains.
"An attack by the Russian cavalry
against the German vanguard in
front of Andrew, and marching on
Kielce, was crowned with great suc-
cess. The German infantry was
caught unawares and is retreating in
disorder, pursued by the Russian
cavalry.
"The bombardment of Osovetz
did damage to only a few private
dwellings and a few telephone lines.

GERMAN EMPEROR
TRAVELS IN TRAIN
SPECIALLY GUARDED.

(Associated Press Telegram.)
Rome, Oct. 1.—(Via Paris.)
Oct. 2.)—Emperor William,
says a telegram from Berlin, is
going from one front to an-
other. He travels in a special
train of ten Pullman cars
which formerly were painted
white and blue, but which now
have been repainted like the
ordinary cars in order to pro-
tect the train from the bombs
of French aviators.
When the emperor goes to
places out of the reach of the
railway he travels by auto-
mobile. Besides his aides and
bodyguard he is also watched
by special secret field police.

as the garrison was sheltered by
numerous concrete walls.
"The offensive taken by the Rus-
sian troops marching through the
forests of Augustowo was not covered
by the artillery. South of Au-
gustowo a hand to hand engagement
took place. It was particularly
fierce in the semi-circle between the
Bialobrozeg basin, which was crossed
by a Russian column and the Au-
gustowo canal near the Rorki basin.
The issue of this engagement was
decided by an attack from Augus-
towo.
"Northwest of the forest of Au-
gustowo the Russians were compell-
ed to attack the rear guard of the
Germans through numerous defiles
and in fortified position where the
Russian infantry received great help
from its heavy artillery which caused
great losses to the enemy, who
were dislodged from the entrench-
ments and retired under our fire.
"The battle is proceeding over an
extensive front. The Germans occu-
pying positions near Mariampol and
south of St. Shushin.
"In the vicinity of Wresouch the
ground is very rough, making it very
difficult for the troops to keep their
battle lines. This has resulted in a
series of individual engagements.
"The advance of the Russian
troops is meeting with success every-
where.

GERMAN REPORTS
OF SUCCESSES
STILL CONTINUE

(Associated Press Telegram.)
Berlin, Oct. 2, by wireless to Say-
ville, L. I.—According to announce-
ment made in Berlin today the great
battle in France is still undecided.
The Germans are described as ham-
mering the French positions at numer-
ous points by their heavy artillery.
The attempts of the allies to break
through the German lines have been
repulsed. The heaviest losses have
been in the Argonne regions. The
Germans continue to make steady pro-
gress.
In the fighting before Antwerp the
German artillery has silenced two of
the Belgian forts. German troops cap-
tured thirty aeroplanes sent from
France to Belgium.
In the eastern arena of the war the
Russian offensive movement from the
Niemen river against the Germans in
the province of Suwalki, is declared to
have failed.
It is officially reported that the
Russian fortress at Ossowetz, in Rus-
sian Poland was bombarded by the
Germans until September 25.
The fighting in France, the siege of
Antwerp, and the offensive operations
under General Von Hindenberg, all
going on at the same time, are taken
in Berlin to indicate that the German
army is not lacking in men.

TRIPLE ALLIANCE
WILL CRUMBLE IS
DIPLOMAT'S VIEW

(Associated Press Telegram.)
Rome, Oct. 2.—(Via Paris.)—
The Idea Nazionale has published
an open letter to Premier Salandra
setting forth that nobody believes
the triple alliance will be in exist-
ence after the war. It has been
proved, the writer of this letter says,
that Italy is not qualified to be an
ally of Austria, therefore, to remain
isolated would be a crime against
the country as it would mean su-
preme danger in the future.
The paper expresses the hope that
if Signor Salandra remains as pre-
mier he will free Trent, Trieste and
Dalmatia and join them to Italy,
thus crowning the labors of the
makers of Italy and completing the
work of Cavour.

PROGRESSIVE HAS
GIVEN UP FIGHT
TO BE ON TICKET

(Associated Press Telegram.)
Columbus, Oct. 2.—No further ac-
tion has been taken by James V.
Murphy of Youngstown to have his
name placed on the ballot as a non-
party for justice of the Supreme
court in the Progressive ticket. Fol-
lowing the refusal of the Supreme
court yesterday to grant a petition
in mandamus asked by Murphy, Sec-
retary of State Graves announced
that he would refuse to place the
Youngstown man's name on the bal-
lot because of the protest of Walter
F. Brown, state chairman of the
Progressive party that Murphy was
a Republican and not a Progressive.

HARBOR BILL A LAW.

Washington, Oct. 2.—President
Willson today signed the rivers and
harbors bill, appropriating \$20,000,
000 to be expended under the direc-
tion of the war department on pro-
jects already begun.
A Colorado mining company recent-
ly shipped a ton of ore in 50-pound
packages by parcel post.

RED CROSS SHIP
ARRIVES, READY
TO AID FRANCE

(Associated Press Telegram.)
Bordeaux, Oct. 2.—The American
hospital ship Red Cross arrived at
Pauillac this morning from Bal-
mouth, Eng. She comes to France
to bring the Red Cross units which
will serve with the French armies
in England she disembarked the
units for service among the English
wounded as well as those which are
to go to Russia. The medical sup-
plies brought by the Red Cross were
most welcome in Bordeaux, for in
this city alone, according to the
Journal des Debats, 40,000 wounded
men have been treated in the past
thirty days. The supply of surgical
instruments is almost exhausted, and
the local doctors have been obliged
to exercise much ingenuity in devis-
ing substitutes.
For example, all the children's
hoops in the city have been requisit-
ioned to make bed cases for fractur-
ed limbs.

AUSTRIAN ARMY
STOPS OFFENSIVE
SHORT OF DRINA

(Associated Press Telegram.)
Paris, Oct. 2.—"After twenty days
of the offensive," says a Nish Servia
dispatch to the Havas agency, "the
Austrian forces have stopped 12
miles from Drina on the Bosnian
frontier.
"While these forces are awaiting
reinforcements before they will be
able to resume the offensive, their
troops at the north have been trying
desperately to advance over the
plains between the Drina and the
Save to get at the right flank of the
Serbians. All their efforts there
were defeated in bloody battles.
"Meanwhile the Servians and
Montenegrins advanced slowly but
surely in Bosnia. Breaking the
stubborn resistance, they occupied on
Sept. 30, Romania and several other
towns in the vicinity and are now
advancing toward Sarajevo."

17TH WOMAN IN
CHICAGO FREED
BY MALE JURY

(Associated Press Telegram.)
Chicago, Oct. 2.—Mrs. Nellie
Higgs, tried for the murder of Wm.
M. Willis, a married man with whom
she had conducted a liaison was found
not guilty by a jury in Judge Kern-
sten's court here today. She shot
and killed Willis, an Illinois Central
conductor.
Her acquittal adds the seventeenth
name to the unbroken list of such
verdicts in cases of women similarly
accused in this city.

20,000 PASS
THROUGH GATES
AT COUNTY FAIR

While it has been impossible to
count the tickets sold today at the
fair grounds, the officials on duty at
the gates are unanimous in the op-
inion that today's crowd is twice the
size of Thursday's attendance, when
10,000 in round numbers paid admis-
sions at the gate. It is the largest at-
tendance recorded in recent years.

CANAL BEGINS TO
PRODUCE REVENUE

(Associated Press Telegram.)
Washington, Oct. 2.—The Panama
canal is beginning to produce revenue
though not yet enough to meet the
calculations of the financial experts
because of interruption of traffic by
the European war. During August the
revenues were \$51,641, greater part of
which was received after August 15,
the date the canal was officially
opened. Eastbound traffic slightly ex-
ceeded the westbound by about \$200
in tolls.
Though the canal is in operation a
great deal of excavation remains to be
done to bring the canal to its proper
proportions.

NO WARSHIPS TO
MEDITERRANEAN

Washington, Oct. 2.—Secretary Dan-
iels said today the administration had
no intention of sending more warships
to the Mediterranean to protect Amer-

of Americans in Turkey.

What "Man-Tailored" Means in a Davies Garment

THERE'S A SIMPLE PLEASANT WAY TO FIND OUT

Have you paid any attention to the most essen-
tial part of a garment, that of tailoring, before mak-
ing your selection? Seven out of ten women don't,
but they should. "Man-Tailored" tells a story of
volumes. It means every yard of cloth is thorough-
ly shrunk, every operation in the making is per-
formed by experts, who have been at that particu-
lar work for years. Every garment is fitted on live
models, which readily accounts for the ease with
which you can be fitted in a Davies coat or suit.
"Man-tailored" also means that the "life" of a gar-
ment, that part of the inside which you cannot see,
is as faultlessly made as the outside. It assures you

that the shapely lines as when new will stay that
way—no curled lapels, broken fronts, drooping
shoulders and that unsightly baggy look. Every
garment we show is man-tailored, made in the large-
est factories in the country, in light, airy shops.
When buying a coat or suit here, you have the as-
surance that it is the best money will buy, both in
style and wearing qualities. As we said in the cap-
tion above, "There's a simple, pleasant way to find
out." Just drop into our large daylight Ready-to-
Wear Department and try on the actual garments
before our mirrors. They will tell you a story that
words of ours would fail to convey.

RIOT

OF HINDUS WHO WERE RECENTLY RETURNED LANDING IN BRITISH COLUMBIA

Results in Sixteen of Them Being Killed, Reported From Calcutta, India.

(ASSOCIATED PRESS TELEGRAM)
London, Oct. 2.—In a dispatch from Calcutta, the correspondent of Reuters Telegram company describes a mutiny of Sikhs brought back to India, after being refused admittance to British Columbia.

Sixteen of the Indians were killed. The correspondent transmits a communication on this subject issued by the Bengal government as follows: "The Sikh passengers on the steamer Komagata Maru, who were refused permission to land at Vancouver, British Columbia, arrived at Bajar last Saturday. Some of them refused to board a train for the Punjab and opened fire with their revolvers. One European was killed and several others, including the commissioner of police, were wounded. One Punjab policeman was killed and several were wounded. Troops were compelled to fire to check the rushes of the Sikhs and sixteen of the rioters were killed. The remainder were scattered to surrounding villages, and later were rounded up."

The Hindus who mutinied at Bajar are the men who for more than three months resisted the Canadian government's order of deportation, but who finally were compelled to return to India from Vancouver on the same ship that brought them out, the Japanese steamer Komagata Maru.

This steamer, with 252 Hindus on board, reached Vancouver in April of this year. She sailed on her return trip July 23. During this time the status of the East Indians was passed upon by the highest courts of Canada, which finally ruled that they could not land.

The regular meeting of the Licking Democratic club will be held this evening at the club rooms in South Third street. This will be a meeting for the transaction of general business and all members are urged to attend.

200 NEW VOTERS ARE REGISTERED BOARD ESTIMATES

While no accurate account was taken of the registration reports turned in by registrars after Thursday's session the voting booths, it is estimated that 200 new voters were placed on the books and thereby made eligible to vote.

The next registration day is October 8, when the voting places will be open at 8 a. m. to 2 p. m. and from 4 to 8 p. m.

The number of transfers issued yesterday indicates that there have been many removals in the city during the past year.

OWNERSHIP OF LICKING CO. HOMES SHOWN IN REPORT

The United States census department at Washington has just issued a bulletin dealing with the ownership of Licking county homes. The important facts contained in the bulletin relative to this county are as follows:

There are 14,588 homes in Licking county. Of this number 4186 are farm homes. Of the farm homes 2197 are owned by their occupants and are free of mortgaged incumbrance. The mortgaged farm homes number 941. Renters occupy 1034 farm homes in this county. Out of a total of 14,588 homes in the county, 10,102 are urban homes. There are 5086 urban home owners in the county. Of this number 1864 are mortgaged, 3181 of the urban owned homes are free of incumbrance. There are 4752 rented urban homes in the county. The census enumerators were unable to secure data pertaining to the ownership of a small percentage of both the rural and urban homes in the county.

TRAFFIC COPS BUSY HANDLING THE BIG CROWDS

The unusually large county fair crowd Friday caused a congestion of traffic in many of the downtown streets, the corner at Third and Main streets presenting unusual difficulties. Patrolmen Hurlbaugh and Abbott spent the entire morning on this corner directing automobiles and other vehicles and guarding against possible accidents to pedestrians on the street corner.

Despite the fact that practically every city in the country is enforcing traffic regulations, many drivers of automobiles and rigs insisted on violating traffic rules by driving on the wrong side of the street.

Be it said for the officers on duty that they showed a much better control of temper than did those who were instructed to keep to the right, who were asked to pause to give pedestrians a chance to cross the street.

Not an accident occurred at the corners where patrolmen were on duty, though thousands of rigs passed in both directions, a large majority disregarding rules of the road and common sense.

Larger Crowds Attend Fair And Enjoy the Best Racing Seen There For Many Years

A large crowd witnessed the races at the Licking county fair Thursday. The weather was excellent and the going good and as a consequence every one was well pleased with the entertainment afforded them. There were four events on the program, a 2:18 trot, 2:17 stake 2:11 pace and a running race mile heats best two in three.

W. D. Woodland of Washington, D. C., again presided as starting judge and got the horses away in excellent shape. Messrs. W. V. Vance, Orville Kiger and John Willis Fulton were the presiding judges and the timers were Ben B. Jones and Amos and George Groves.

The first race on the card was the 2:18 trot and six horses responded to the bugle call. They were all topky looking fellows and looked fit to turn the track in record time. The going was good and the splendid weather of the past week meant a fast track. The horses got the word on the third scoring and Hub Holiday a bay gelding took the lead and kept it until she came in under the wire by a hard drive only a neck in the lead. The second heat was won by Jack Woodchiffe, a black horse entered by Bart Critchfield of Mount Vernon. The horse is totally blind but is steady and shows remarkable bursts of speed. It is said that he has not lost a race this season and has been a money maker for its owner. He finished second in the third heat and won the next two.

In the 2:17 stake pace for a \$600 purse, Berdonna, a bay mare, entered by Stout Brothers of Clarksburg, W. Va., won in three straight heats. She had a hard contender in All Wilkes, but the Stout entry was just a little bit too speedy for the latter horse.

The first heat was clipped off in 2:19 1-4 but the knowing ones claim that it was "a wee bit faster."

The 2:11 pace was one of the best races seen at the track in years. There were only four starters, but the rivalry in all heats kept interest at fever heat. Michigan King, a bay gelding, took the first honors, but was compelled to relinquish it to Lady Venus, who won the next three heats and race. In the second heat Van Buren started to take the lead from the Erwin entry. The big sorrel gelding was driven by Nelson Sarrett, the well known local horseman. He showed a

pretty exhibition of driving but unfortunately while turning the second quarter stretch had his wheel caught by another bike attempting to drive through when there was not sufficient room with the result that the tire was torn from a wheel of Driver Vanatta's bike. He drove out the mile, however, on the rim of the wheel finishing well up in the bunch. In the third heat Vanatta brought the crowd to its feet when he made a drive coming down the home stretch, pushing his horse to the front in a hard drive and losing out just by a nose, in fact it was as near a dead heat as could be without calling it one.

The running race was won by Donald Mack. There were only four entries but the heats were very exciting and greatly enjoyed by all who witnessed them.

Only one accident occurred during the afternoon and fortunately no one was injured. Grace Clay, driven by E. N. Brown, caught in her hobles before going in under the wire in the third heat of the 2:17 pace. The horse went down and the driver was thrown over her head. He saw the horse was going to fall and fixed himself for the leap which he knew he would be forced to take. Fortunately no one was injured, but it caused great excitement as it happened just in front of the grand stand.

Today's weather could not be improved upon and a great crowd is again at the track this afternoon, the race program consisting of a 2:24 trot, 2:20 pace 2:15 trot and a running race.

The summaries for Thursday's events follow:

PRINCIPAL USE OF AEROPLANES, IS AS SCOUTS

TO AVOID BULLETS AVIATORS MUST FLY HIGH, AND AT GREAT SPEED.

Which Militants Against Their Aim in Dropping Bombs at Any Definite Mark.

(ASSOCIATED PRESS TELEGRAM)
New York, Oct. 2.—That the main service of aerial craft for military and aviation purposes is for observation and the collection of information rather than as machines of destruction was the opinion of experts and members of the aero club of America who met last night to discuss the aerial lessons of the present European struggle. Captain Elward Hecker, formerly of the Thirteenth royal dragoons, of the German army and captain Washington I. Chambers, U. S. A., retired, and several members of the club, agreed that in the present war it had been proved that observation and the collection of information had been the chief work of the military aviators.

According to Captain Hecker a large air cruiser of the Zeppelin type is limited in the size of bombs intended for throwing to a maximum weight of about 250 pounds. Otherwise he said, the long stretched body, filled with gas, would be damaged by the sudden rise such as would cause the loss of two much weight and dropping of a very heavy bomb.

Hitting the mark is not easy. Captain Hecker declared since to avoid the bullets of the defenders an aviator must fly at a considerable height and in addition to this rapidity of his motion militates against his aim. Eligibles, he declared, which can practically be brought to a standstill are too costly to be risked in attacks which are not of the utmost importance.

GERMANS DENY ANY INSULT IS OFFERED PATTI

(ASSOCIATED PRESS TELEGRAM)
Rome, Oct. 2.—Via Paris.—According to information reaching Rome, the German authorities have given official denial to the story sent out from Paris a fortnight ago that Adelina Patti suffered insult or inconvenience on leaving Carlsbad. This official statement declares that the famous singer did not need the protection of troops against the ill-will of the Carlsbad mob. A special train was put at the disposal of Madame Patti and other illustrious foreigners and the mayor of Carlsbad made them farewell. There was a demonstration at Carlsbad but it was directed against several French crooks who had given provocation.

Concerning a quick firing gun which Madame Patti said she had made reference to, the German authorities declared they think she must have been confused about photographic apparatus before which she posed.

CHURCH OF CHRIST HAS CHOSEN A PASTORAL HELPER

Another forward step that has been taken by the Central Church of Christ is the engaging of an assistant to the pastor. This is a matter that has been under consideration for some time, and the action taken was not a hasty one. A pastoral helper is not considered in the light of a luxury, but as an economic and spiritual necessity. Neither is it intended to allow the minister to have an easy time, but to supplement and strengthen his work. The congregation voted last Sunday morning to accept the recommendation of the officers, to the effect that a call be extended to Miss Mary E. Hughes, of Catlin, Illinois, to become a pastoral helper, for an indefinite length of time. A telegram in the afternoon brought the reply, before evening, that she would accept the call. Miss Hughes possesses a rare combination of talents. She will direct all of the music of the church, work among the young people, call in the homes of the members and of others who may need her help, and assist the pastor in the study. Her energies will be directed, chiefly, toward conserving the present strength of the church and stopping the leaks. In these days of efficiency, such work brings results.

It is expected that Miss Hughes will begin her work within a week.

SUTLEY ASKS FOR PAROLE IN COLUMBUS

Wesley Sutley, serving a sentence in the Columbus workhouse, from Newark has made application for parole and the safety director R. L. Barker has asked Mayor Higbee to recommend the action. The superintendent of the works interested in Sutley's behalf after the Newark man prevented the escape of two prisoners, thought himself a member of the honor squad in the farm. His term would have expired November 7.

ROMANTIC

FIGURE OF KING ALBERT OF BELGIUM, AT THE DANGER ZONE AT ANTWERP

Heights About Noyen, Captured by Van Kluck, are Retaken by Victorious French.

(ASSOCIATED PRESS TELEGRAM)
London, Oct. 2.—French all signs are away the German armies in France or at any rate most of them are nearing the completion of their round trip. This it is said here, is the only conclusion hinted at even by the Berlin newspapers—to be drawn from the reports, both official and unofficial of those on or near the scene of action.

It is evident that the progress of the allies on their left is considerable while the hole through which the Germans might have pierced the line of French fortresses on the Meuse river side, had been stopped.

The fierce battling around the heights of Roye, to the northwest of Noyen, seems to have ended in favor of the French. The heights were captured by General von Kluck's men on Wednesday but on Friday, according to a French report, the allies regained control of the position. Antwerp, temporarily the Belgian capital, ought to be capable of maintaining a long defense. King Albert is a romantic figure of the war in this quarter. He constantly goes in to the danger zone and his determination, fearlessness and activity recall those of Stadtholder William in the historic siege of Leyden.

That the battle of Gracow which opened yesterday, will be long and arduous struggle no one questions.

General von Hindenberg, the German commander who scored notable successes in eastern Prussia against the invading Muscovites, has taken supreme command of the combined German and Austrian forces. These undoubtedly are a formidable army.

The German headquarters staff reports dismiss the situations both in this and the Belgian theatres with the words "entirely changed."

From Petrograd, however, it is officially asserted that the Russian troops continue to drive the enemy from the borders of the Suwalki and Lenza governments and there has been continually determined fighting west of Simno. The German troops, which attacked Ossowetz are retreating precipitately to the north.

Petrograd also announces that considerable forces of the enemy are concentrated in the western districts of the provinces of Petrofokoff and Kielce, Russian Poland.

The Franco-British naval operations against Pola the Austrian base on the Adriatic, are viewed with marked interest as they are likely to affect the Italian attitude towards participation or otherwise in the war. The Montenegrin consul general here, stands across the road approaching the Bosnian capital, Sarajevo, whose supplies thus have been cut off.

The Montenegrins have commenced their attack of Sarajevo the fall of which, it is claimed in the report "seems imminent."

The same announcement says that by the capture of Vlasenitz the Servians have cut off the retreat of the Austrian army.

NEWARK'S COMPANY OLD GUARD, MADE HIT AT THE FAIR

The Old Guard, Company B, made a great hit at the Licking county fair Thursday. There were 46 men in line under command of Capt. Mat Bausch and in the afternoon gave an exhibition drill and led by their drum corps marched along the track in front of the grand stand receiving the plaudits of the great crowd present. Some of the old boys are a little feeble and gray but they marched with head erect and created a fine appearance. Later they fired a number of volleys and were greeted with the "Star Spangled Banner" from the boys of the Buckeye band.

SPLIT HEATS IN GRAND CIRCUIT DELAY PROGRAM

Columbus, O., Oct. 2.—So many horses were not winners at yesterday's Grand Circuit races that but half the program was completed. Coates Mohel took the 2:11 pace without dropping a heat. Lillian W. winner of second money was the original favorite. Signal Boy won the 2:15 trot, a six-heat struggle, during which the winner made several costly breaks. He was the first choice.

Five heats did not settle the 2:05 pace, on which there was heavy betting, with R. H. Brett favorite at \$130 in pools of \$100.

The 2:10 trot was unfinished also. The meeting is scheduled to close tomorrow. Summary:

2:11 pace, 1st, \$1,200 Coates Mohel (Cox); 2nd, Lillian W. (McMahon); 3rd, Bruce Ken (Murphy); 4th, Best time 2:06 1-4.

2:15 class trot, 2 in 3, purse \$1,200. Signal Boy (Wright) won; Lillian W. (Cox) second; Peter Pearl (Nuckolls) third. Best time, 2:09 1-4.

2:05 class trot, 3 in 5, purse \$1,200 (unfins). The Wanderer (C. Macevitt) won; 2nd, Wilco (Marvin); 3rd, Bud (Cox); 4th, Best time, 2:07 1-4.

QUIT MEAT WHEN KIDNEYS BOTHER

Take a glass of Salts before breakfast if your Back hurts or Bladder is troubling you.

No man or woman who eats meat regularly can make a mistake by flushing the kidneys occasionally, says a well-known authority. Meat forms uric acid which excites the kidneys, they become overworked from the strain, get sluggish and fail to filter the waste and poisons from the blood, then we get sick. Nearly all rheumatism, headaches, liver trouble, nervousness, dizziness, sleeplessness and urinary disorders come from sluggish kidneys.

The moment you feel a dull ache in the kidneys or your back hurts or if the urine is cloudy, offensive, full of sediment, irregular of passing or attended by a sensation of scalding, stop eating meat! and get about four ounces of Jad Salts from any pharmacy; take a tablespoonful in a glass of water before breakfast and in a few days your kidneys will act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush and stimulate the kidneys, also to neutralize the acids in urine so it no longer causes irritation, thus ending bladder weakness.

Jad Salts is inexpensive and cannot injure; makes a delightful effervescent lithia-water drink which everyone should take now and then to keep the kidneys clean and active and the blood pure, thereby avoiding serious kidney complications.

CLOGGED NOSTRILS OPEN AT ONCE, HEAD COLDS AND CATARRH VANISH

In One Minute Your Stuffy Nose and Head Colds, Sneezing and Nose Running Cures, Dull Headache Goes.

Try "Fly's Cream Balm."

Get a small bottle anyway, just to try it—Apply a little in the nostrils and instantly your clogged nose and stopped up air passages of the head will open; you will breathe freely; dizziness and headache disappear. By morning the catarrh, cold-in-head or catarrh sore throat will be gone.

End such misery now! Get the small bottle of "Fly's Cream Balm" at any drug store. This sweet, fragrant balm dissolves by the heat of the nostrils; penetrates and heats the inflamed, swollen membrane which lines the nose, head and throat; clears the air passages; stops sneezing discharges and a feeling of cleansing, soothing relief comes immediately.

Don't lay awake tonight struggling for breath, with head stuffed; nostrils closed, hawking and blowing. Catarrh or a cold, with its rushing nose, foul mucous dripping into the throat, and raw dryness is distressing but truly needless.

Put your faith—just once—in "Fly's Cream Balm" and your cold or catarrh will surely disappear. F. D. Hall, 10 North Side Square, Newark, O.

This Campaign.

This is by no means an "off" year in Ohio politics. The people next month will elect a governor, a United States Senator, twenty-two members of the House of Representatives and many county officers.

Democrats, Republicans and Progressives have named state and Congressional tickets, while the Socialists have nominated a state ticket and in some cases candidates for Congress. The Prohibitionists will have no ticket in the field this year, having endorsed the Progressive platform ticket.

Then in addition to the election of men to national, state and county office on November 3, the voters of Ohio will have an opportunity to vote upon Woman's Suffrage, State-Wide Prohibition, Home Rule and Limitation on the Tax Rate, four proposed Constitutional amendments. The names of candidates for judicial office will be printed upon a separate, non-partisan ballot. The issue so far as the Democrats are concerned is the progressive legislation enacted by the last general assembly. This legislation includes a compulsory workmen's compensation law, a state road building program, a modern tax law, a complete and modern school code, a mother's pension act and a number of other progressive enactments. The Republican platform is a straddle upon the temperance question, a condemnation of the state highway department, with a promise to abolish that modern method of securing universal good roads; opposition to the tax law, and condemnation of practically everything progressive adopted by the Democrats. The Progressive platform does not oppose generally the laws enacted under this administration. So, reduced to its last analysis we have a contest for the continuance of the human and regulatory enactments of a Democratic administration.

The Advocate yesterday printed that section of the Democratic state platform which places the party on record as opposing at this time any further extensive legislation and urges a short session of the next general assembly of Ohio.

Governor Cox who is a candidate for re-election points out the fact that the success of the new Ohio laws — workmen's compensation.

Thrill In War Time.

The remark is frequently made and with good sense, that in the uncertain business outlook now existing, there should be a "whole-at effort for more thrift and economy in living expenses. The war is going to destroy billions of loanable capital. The American people will have to take up enormous quantities of their stocks and bonds now held in Europe.

The trouble comes, in putting this idea into practice, that as the prosperity of the country has grown most people have taken on more costly habits of living. It is easy to let the dimes and dollars slip out into new ways of spending, and triply hard to return to former frugal habits.

For instance, a young man remarked in the hearing of the writer a short time ago, that a man must hold on to a nickel pretty tight, if he made it a practice to black his own boots in his home city, he said, the business streets were lined with boot-black establishments. Few young men in his set condescended any longer to black their own boots.

This young man is apparently getting a salary of about \$15.00 per week. His business demanded that he make a good appearance. He should have his boots polished every day. At five cents each time, that would be over \$15.00 a year. A substantial chunk out of his moderate income.

One such expense may not be of vital moment. But just as soon as people begin to hire others to do what they can equally well do for themselves, they become infected with the contagion of waste and extravagance.

All the money that the people can save will be needed in the next few years to keep factories, the railroads, and the mines going. It is a time when people in moderate circumstances should cast away false pride. They should feel no shame, even if they cook their own dinners and carry their own suitcases when travelling.

Kenyon and Willis

While Mr. Willis the stand put candidate for governor of Ohio is attempting to belittle President Woodrow Wilson it is refreshing to note what a Republican of large caliber, Senator Kenyon of Iowa, said in the United States Senate last Saturday. Mr. Kenyon uttered this expression:

You have a great leader, a great president, strong in the affections of the people of this country. I pay tribute to him. I am glad he is president of the United States in those troublesome times and that with such a steady hand he is guiding this old ship of state through the rocks and shoals that are setting it in glory in his manhood. You have a right to feel that this is a leadership to be proud of.

Senator Kenyon thus referred to the same Woodrow Wilson that Mr. Willis meant when he criticised the president's policy as "puerile and pusillanimous." Senator Kenyon's words are the truth. Mr. Willis' remark was silly.

The Mobile, (Ala.) Register has just celebrated its 100th anniversary by the publication of a mammoth special edition which certainly is a credit to Mobile and to the publishers of that thriving newspaper.

THE OLD GIRLS.

A man grows old and muscular, and crippled by the loads he carries, it is pleasant then to love a girl, and see her girls he might have married. Some chance, that once conveyed a smart, prevented this or other wedding, ah, then he had a broken heart, and found this life but weary sledding. But now, grown old, he casts his gaze on many a dainty female, that he adores, in other days, and thought enchanting and angelic. That tauton with the shrewish tongue, who keeps her neighborhood excited—she was a peach when she was young, and once with her my troth was plighted. And that old maid who loves her cat, and has of slinging words a cover, and who has grown abominably fat—ah, once I called her "Love Dovey!" And under suffragist scorn, whose pur was poor man's easement; long since I sang a lovers' hymn, on seminar eyes beneath her casement! I thought, the destiny that shaped my course when I was young and giddy! Ah me, the perils I escaped, when I loved the maid and waded! I see old swells' hearts in the town, as here I raise my elbow, and think them that the turned me down, and handed me the ice cream freezer.

A few men get rich quick because the rest of us want to do likewise.

It is funny that if you call a girl a vision she will want to kiss you, and if you call her a sight she will want to kill you.

It often happens that a fellow who can hold a girl on his knees all the time they are engaged discovers that he can't support her after they're married.

It doesn't matter how ugly the baby is, it always resembles the relative who has the most money.

The reason why most married women do not know the value of money is because they never have any.

You may not realize it, but the men with the monoplane ears and the flock of red whiskers was once regarded as the prettiest baby in the whole world.

The reason why a baby is good-natured in the morning when his father is grouchy is because baby scared home with mother the night before and didn't go out. (Blue Channel)

OLD SILAGE.

O. W. Richter, an Indiana farmer, reports that he placed well-matured corn in a concrete silo fourteen years ago and emptied the bottom of the silo the past July. Mr. Richter says that the only difference that he was able to detect between the fourteen-year-old and one-year-old silage was that the former was slightly more acid than the latter, but that the cattle ate old and new silage alike. A very important fact in connection with the silage keeping so well is that the corn was ripe when it was placed in the silo. Incidentally the silo was a home-made one, the base of which was five feet below the surface of the ground line. Such a construction with mature corn well packed would almost insure good silage for several years.

Mr. and Mrs. Wm. Hay Gorsuch, who were married in front of the grandstand at the county fair Thursday by Squire J. J. Hill of Johnstown, president of the Licking County Agricultural society, and Democratic candidate for member of the legislature, were entertained at a wedding supper Thursday evening by Will C. Kuster of the Servell restaurant in the Arcade annex.

A table had been prepared, covered with snowy linen and glistening with cut glass and silverware. It was adorned with a handsome bouquet of cut flowers and was the center of attraction of the many diners during the serving of the wedding dinner. The details were looked after by Manager Kuster.

Occupying the table with the bride and groom were the marrying official, Squire Hill, and three other friends of the newly weds. The bride wore a blue silk dress with an overdrap of white lace and a large picture hat or white velvet. After the supper they left for Johnstown and will go to housekeeping shortly in a cozy home provided by the groom.

Squire Hill, who performed the marriage ceremony, was also the recipient of many encomiums for the dignified manner in which he tied the nuptial knot. Mr. Hill has been the justice of the peace in Monroe township for thirty years, has married scores of couples but has never accepted a marriage fee and says he never will. Following the dinner he made a neat presentation speech to Mr. and Mrs. Gorsuch, turning over to them a large number of presents contributed by local merchants and which will aid them materially in furnishing their new home.

Mrs. John Spillman honored with a six o'clock dinner Thursday evening her guest, Miss Maud Benson of Uhrichsville, and Miss Ella Looker, an October bride. Those who enjoyed Mrs. Spillman's hospitality were: Misses Maud Benson, Ella Looker, Ruth McDonough, Ethel Looker, Anna Spillman, Edith Looker, Helen Spillman, Bess Looker and Mrs. McCollum of Uhrichsville.

BOLIN-KREAGER.

The marriage of Miss Pearl Bolin and Mr. G. Scott Kreager was solemnized at 2:30 o'clock Thursday afternoon at the home of the officiating minister, the Rev. L. T. Ruffner of Hebron. The bride is the accomplished daughter of Mr. and Mrs. Reason Bolin of Mt. Sterling, and is a musician of exceptional ability. Mr. Kreager is a son of J. C. Kreager, a prominent farmer of Gratiot, and is, himself, a successful teacher in the Licking county schools. Both young people are popular in the social circles in which they move and will have the congratulations of friends.

Mr. and Mrs. Bolin will give a reception on Sunday in honor of the newly wedded couple.

Mr. and Mrs. Milford Griffith entertained Sunday at their home in German street. The guests were Messrs. and Mesdames S. J. Snelling, Ora Warner, Frank Ditto, Carl Swartz, Mrs. S. L. Corson, Miss Jessie Ditto, Hazel Harrison, Mary Corson, Helen Diehl, Mesdames Chester Snelling, Robert

KING OF BELGIUM IS A HANDSOME MAN

The young Belgian king, exhorting his little army to hold against the hordes of the German attack, had, says the Toronto Mail and Express, something of the pathetic. No one thought that Liege could hold so valiantly—no one but King Albert and his Belgians, that is. And now the eyes of the world are turned curiously, admiringly, up on the chief defender of this Thermopylae.

Albert Leopold Clement Maria Meinrad—that's his full name. He is the younger son of the Duke of Flanders and would never have ascended the throne of his uncle, King Leopold, had not three other heirs died before the old monarch. Flanders' oldest son, Prince Baldwin, came to a lamentable end, shrouded in a mystery similar to that which engulfed the death of the Crown Prince Rudolph of Austria. So young Albert, never intended to rule, was educated quietly, and allowed to follow his own tastes for books, for mathematics, and for bicycle riding. He is tall—over six feet in fact—well knit, broad of shoulder, and his face is a little chubby and pink checked. His hair is light golden, his features straight and manly, and all Europe calls him its handsomest king.

Albert is nothing if not modern. He has traveled a good deal and gained more by his traveling than 40 American tourists could learn of "Yurru" in 40 years. He made a long stay in the United States spending much of his time in Washington and in the west where he made St. Paul his headquarters. When he returned he wrote a book about his impressions of America, and in it he showed how thoroughly he was in sympathy with the people and institutions of this country. He made a trip around the world in his younger, unmarried days. It is well known that Albert had no desire to reign. Like his father, the great duke, he had the tastes of a country gentleman of modest means and no desire to live beyond them. He has, in fact, a strong aversion to ostentation in his life when he is to the throne was embarrassingly simple. After his marriage it was proposed to

MAUGER-LINES.

Misses Isadore Lines, a popular young lady of Lima, O., and Mr. Edward Mauger of Pataskia, were married at the home of the bride's brother, Mr. Orel Lines, on East Broadway in Granville on September 30. Rev. A. J. Hawke of Granville performed the ceremony in the presence of a few of the relatives of the couple. The happy couple will reside at Lima, O.

Mrs. O. Hartshorn entertained the Tuesday Evening Euchre club. The members present were Messrs. and Mesdames Ray, Cunningham, Leo Hart, Phil Fricker, Earl J. Baird, Leo Stevens, Mrs. Charles George Weaver, Mrs. Nan Hursey was a guest of the club. Dainty refreshments were served. The next meeting to be held will be with Mrs. Phil Fricker.

BUSH-DAGUE.

At 11 o'clock Friday morning Dr. L. C. Sparks joined in wedding Mr. L. H. Bush and Miss Alma Pearl Dague, young people from Johnstown. They are highly respected in that community and have the best wishes of many friends. They will reside near Johnstown.

TAYLOR-MARTIN.

Rev. W. D. Ward, pastor of the Central Church of Christ, solemnized the marriage of Miss Arla C. Martin, daughter of Mrs. Jane Martin of Fallsburg, and Mr. Ross N. Taylor, son of Mr. and Mrs. Emanuel Taylor of Fallsburg, on Friday morning at 10 o'clock at the parsonage of the church. Mr. and Mrs. Taylor will make their home on a farm near Fallsburg.

RED CROSS NURSES

What Women are Doing in the European War.

The women of the Red Cross are nursing, cheering and comforting the wounded or dying. The women of Europe not only wrap bandages and scrape lint, but they tend the farms, dig coal, carry burdens and do the work of the men now under arms. Every male figure, however brawny and heroic, was born of woman; the high courage and hardihood that are a nation's strength are inherited from the mother.

Young mothers who preserve the charms of face and figure in spite of an increasing family and the care of growing children are always to be envied. As a preservative of health and beauty, Dr. Pierce's Favorite Prescription has been hailed by women as a "God-send" to their sex. It gives the strength and health upon which happy motherhood depends. It practically does away with the pains of maternity. It enables a mother to nourish the infant life depending on her, and enjoy the hourly happiness of watching the development of a perfectly healthy child.

Thousands of women who are now blessed with robust health cannot understand why thousands of other women continue to worry and suffer from ailments peculiar to women when they can obtain for a trifling sum Dr. Pierce's Favorite Prescription, which will surely and quickly banish all pain, distress and misery and restore the womanly functions to perfect health. Not a secret medicine, for all ingredients are given under oath upon the wrapper. Contains no alcohol. Sold by druggists. In liquid or tablet form.

MADAME ISE'BELL

WHY AMERICA SHOULD NOW LEAD IN BEAUTY CULTURE AND FASHIONS —Part II.

Dressmaking, as we understand it today, grew up in France under the Empress Eugenie, and the first grand couturier was the originator of the present famous Paris house of Worth.

The first Worth was a young Englishman, the son of an English draper, who came to Paris to learn all that he could of his father's business. With English accumulation he grasped the idea of furnishing the complete gown, that is, he conceived the plan of selling not only the goods and trimmings, but the complete costume, built up under his directions.

The Empress Eugenie found the young Englishman's ideas to her taste and made him court dressmaker, and in spite of all of the second empire and the rivalry of other countries who set up establishments on the same lines, this house has endured up to present times and holds leadership for certain very elaborate and formal costumes.

It has become entirely French in its affiliations. When the war broke out the first of August the Maison Worth closed its doors and turned its big workrooms into sewing ateliers for Red Cross work. All the men under forty-eight, whether members of the firm or employees, left to join their regiments at the frontier.

The output of the dressmaking business in Paris of late years has reached a colossal proportion; it would be difficult to estimate it. Curious enough, while the French men and women engaged in this industry are rarely able to work to good advantage outside of France, the heads of many of these establishments are foreigners, the Austrian and Dutch being largely represented. There are several English firms in Paris and I know of one American.

A certain number of these and to a certain extent all of them cater directly to the American trade. A certain proportion of their models are designed to house the American woman and an acquaintance at all familiar with Parisian couturier knows that these are far from being the models that achieve success in Paris. From this fact it is simply to produce the argument that American women, while they wish their models created in Paris by no means accept the Paris designs. They insist on something made up for them personally that will become and adorn their racial and peculiar type.

What has been the reason that up to now America has been obliged to go to Paris for fashions?

Get At the Real Cause—Take Dr. Edwards' Olive Tablets

That's what I did. Instead of taking laxatives, or worse, I took Dr. Edwards' Olive Tablets. They gave me the relief I needed.

Dr. Edwards' Olive Tablets are a purely vegetable preparation. They are so gentle that they can be taken at any time, and they are so effective that they will cure any case of indigestion.

At bedtime for quick relief, take one or two tablets. They are sold by all druggists.

WARDEN HOTEL BLOCK

DRESS REQUIRES 50 YARDS OF CLOTH AND WEIGHS 46 POUNDS

ated with a lively field-flower pattern with a very bright Yale blue background, with flowers in rose, white, and green. On the bottom is a broad band of yellow Hungarian ribbon flowered in rose, blue and green. Around the bottom run two rows of spangled silver braid. An apron of black satin gorgeously embroidered in gold and various colors, a shawl of soft wool in bright scarlet with cerise roses, and stockings and slippers of red silk complete the costume. The dress falls only to the knees. It is the national Hungarian costume for gala occasions. Girls are taught to do embroidery and decorating while they are mere children. By the time they are fifteen they are expected to be able to make the entire dress themselves, and many of the middle class Hungarian girls make their own dresses.

Sari's dress was made in Hungary. In order that it might be perfectly correct in every detail, and the materials alone cost \$500. Then there was a heavy duty to pay. But Henry W. Savage, who produced the operetta, ordered that no expense be spared in getting the real thing and Sari, being the daughter of a well-to-do gypsy leader, would have one of the richest and costliest dresses in all Hungary.

There is a headress of blue and crimson artificial roses wired into a coronet, edged with gold velvet, silver and red tinsel balls, and with a shower of Hungarian ribbons on each side at the back. It weighs eight pounds. Fortunately the actress playing the part of Sari does not have to wear the costume very long.

In five years Germany has spent \$25,000,000 on aeronautics.

Vapor Treatments for Cold Troubles

Are now used in all hospitals. The vapors carry the medication to the lungs and air passages without disturbing the stomach. When Vick's "Vap-O-Rub" Cream and Pectoral Salve is applied over the throat and chest, these vapors—of Menthol, Thymol, Eucalyptol, Camphor, and Pine Tar—are released by the heat of the body. Usually the worst colds go in one night—croup in fifteen minutes. Vick's is fine for head colds, asthma, and catarrh, and is absolutely harmless. These cures—free from drugs—VICK'S CREAM AND PECTORAL SALVE.

Eliz Gergely as "Sari" in Henry W. Savage's International Operetta Triumph, "SARI" Auditorium, Tuesday Night, October 6.

Have you ever worn a dress weighing in pounds, with fifty yards of cloth in it? Certainly there is such a dress.

When Sari, the delightful little heroine of Henry W. Savage's production of the international operetta triumph, "Sari," which comes to the Auditorium on Tuesday next, goes to Paris to see the Young Count, who has been her lover, she wears her best dress. The dress is distinctive, old-fashioned, and only one of four patterns but is in contrast to the sensational ahead only one. The satin is de-

of the models' gowns worn by the other guests of the Count, but it arouses as much interest because of its quaintness.

There are fifty yards of cloth in the entire dress and it weighs 46 pounds. Fourteen yards of cotton backed satin were required for the overdress and thirty-six for the petticoat which is made of one piece of lace behind her back. The first time she saw her, she wears her best dress. The dress is distinctive, old-fashioned, and only one of four patterns but is in contrast to the sensational ahead only one. The satin is de-

Wheat Declines.
(Associated Press Telegram)
Chicago, Oct. 2.—Wheat, unchanged; at Liverpool and continued heavy receipts in the American northwest, brought about a further decline today in the wheat market. Many holders were attempting to sell out and there was only limited support on the buying side. A sharp break, however, covering by shorts brought about a rally. The opening which was 1/4 off to 1 1/2 up, was followed by a drop of nearly two cents. The close was 1/4 up, but the greater part of the loss was regained.

He Would Find Out.

Henry Irving in his early days once played a part which in the first act called for a dark stage. In this darkness he fought with an old earl, threw him heavily, and when he did not rise after the loud thud of his fall Irving would cry out:

"Great heavens, what have I done?"

One night he played the part to a small English town. A stage hand was very much impressed with the play, and to him the scenes quickly became real, so that when Irving reached the climax, felled the old earl to the ground and spoke the line "Great heavens, what have I done?" he was startled to hear the stage hand say in a loud voice:

"Strike a match and we'll have a look."—New York Globe.

Chamberlain and His Monocle.

While the late Joseph Chamberlain was crossing Palace yard one day some years ago he was accosted by an American girl with the cool request, "Mr. Chamberlain, please do give me your eyeglass for my cabinet at home."

It was at once handed to her, guard and all, so promptly that the curio hunter apparently felt some remorse and stammered, "Most likely I'm inconveniencing you." "Not at all," replied Mr. Chamberlain as he produced from his pocket a morocco case and took from it a spare monocle, which he screwed in position, and then went on his way, smiling.—London Express.

A Spade and an Acre.

I believe in a spade and an acre of ground. Whoso cuts a straight path to his own living by the help of God, in the sun and rain and sprouting grain, seems to me to be a universal working-man. He solves the problem of life, not for one, but for all men of sound body.—Emerson.

Pocket Mirrors.

From the twelfth to the fifteenth century small mirrors, carried in the pocket or attached to the girdle, were regarded as indispensable adjuncts to ladies' toilets. The pocket mirror was a circular plaque of polished metal fixed in a shallow box and covered with a lid.

COPLAND TELLS ATROCITIES IN EUROPEAN WAR

FORMER GRANVILLE STUDENT WHO HAS BEEN IN SWITZERLAND 15 YEARS.

Written from London, Telling of His Interviews With Soldiers—Assistant to Embassy.

Howard Copland, cousin of Mr. Charles Robinson and Miss Eva Robinson, of Granville, a Denison University student in the eighties, who for fifteen years has been a resident of Switzerland and who has been a representative of the Paris edition of the New York Herald, has sent from London a letter under date of Sept. 12th. Mr. Copland says, in part:

We were in our house at Interlaken when the war broke out, and along with some 800 other Americans, we were very effectively "bottled up" there. Ambassador Herrick was marvelous in what he accomplished for us. In the midst of all that confusion of warfare, when every locomotive in France was working over time in moving French troops, and when a telegram, if it got through France at all, moved at the average rate of 10 miles an hour, he actually completed arrangements for getting us out by special trains to Paris and to London in lots of about 1200 each. Inasmuch as I happened to speak French about as well as English, I was designated by the embassy to take charge of the first special train and move these hundreds of my fellow countrymen through France on one collective passport, at a time when everybody else of foreign nationality was being held up for examination of his individual papers about every time he turned around.

It went off all right and we reached Paris in not much more than twice the number of hours that the trip usually takes. The train would go for about two hours and then be held up for about two hours, and always the delay was caused by the congestion of all the railway yards with long freight trains carrying back from the seat of war wounded French soldiers. They were simply stretched out on the floor in straw that was matted and stained with human blood. My official papers describing me as "diplomatic agent of the U. S. A." secured me much consideration with all the railway people and I was given permission to while away the long waits on the route by visiting all these trains and talking with the wounded soldiers, and I have never been so thankful in my life for my knowledge of conversational French.

Now the part I want to tell you most about in the impression I gained concerning the "atrocities." It is true, everything that you have read about this in the papers—and now I know it. When I started out I thought just the contrary. I remember saying very positively that the beginnings of every war abounded always in these silly accusations, and that when the evidence came to be beaten out, it would certainly be found that these "atrocities" were illusions of over-excited minds.

Well, that was all very well as a psychological generalization, but it just simply went contrary to my total experience of countless interviews that I had during that long 28-hour journey with all these straightforward plain soldiers that I talked with. They came mostly from Belgium, Alsace and Lorraine, in those first weeks of the war, when it was a constant process to take and retake the same town in alternate occupation by the two respective armies, first one and then the other. It was the campaign before the long one-sided retreat across France began.

The atrocities committed in many of these towns simply beggar description, according to the almost unanimous testimony of these wounded soldiers. I suppose you remember that the last 20 years or

Constipation a Penalty of Age

Nothing is so essential to health in advancing age as keeping the bowels open. It makes one feel younger and fresher and forestalls colds, piles, fevers, and other dependent ills. Caloric laxative- and purgative are violent and drastic in action and should be avoided. A mild, effective laxative- and purgative is the name of Dr. Caldwell's Syrup Pepsin. The price is fifty cents and one dollar a bottle. For a free trial bottle write to Dr. W. B. Caldwell, 451 Washington St., Monticello, Ill.

so of my life have been devoted for the most part to the study of psychology, and I am especially keen on examples of human error, as in the minor tests of the laboratories of experimental psychology, and in the testimony, such as set forth in Munsterberg's book, "On the Witness Stand," that probably you have read. On my trip at first I approached this line of questioning about atrocities of the enemy, merely with the idea of finding interesting examples of this cumulative self-deception, and it was a long time before it came to dawn upon me that in this case my theories were quite misplaced. I questioned one after another of these wounded soldiers, and I took all the precautions, such as my most technical books would have suggested, to lead the way to contrary results, but the conviction left upon my mind with great positiveness is that the atrocities committed by the Germans, at least in those opening weeks of the war, go far beyond any portrayal I have seen of them even in the bitterest reports of the public press.

In scores, and I think I can truthfully say in hundreds of cases, I was told quite simply and convincingly of dead women and young children lying in heaps in almost every village evacuated by the German troops in those first weeks of the war. At first the French troops thought it was the result of stray bullets, till they came to notice that so frequently the wounds were those of bayonet and sword, and the tales of the surviving villagers showed how they had been butchered almost wholesale and quite apart from any question of reprisals for even fancied injury done by them to the Germans.

HOW TO DESTROY THE DANDRUFF GERM

BY A SPECIALIST
That the dandruff germ is responsible for nearly all the diseases to which the scalp is heir, as well as for baldness and premature gray hair, is a well known fact, but when we realize that it is also indirectly responsible for many other diseases as well, we appreciate the importance of any agent that will destroy its power. We are therefore, particularly pleased to give herewith the prescription which an eminent scientist states he has found after repeated tests, to completely destroy the dandruff germ from one to three applications. It will also almost immediately stop falling hair and it has in numerous cases produced a new hair-growth after years of partial baldness. This prescription can be made up at home, or any drug-gist will put it up for you. 6 ounces Bay Rum, 2 ounces Lavender oil, 1 ounce one-half drachm Menthol Crystals. Mix thoroughly, and after standing an hour it is ready for use. Apply night and morning, rubbing into the scalp with the finger-tips. If you wish it perfumed, add 1 drachm of your favorite perfume. While this preparation is not a dye it is unequalled for restoring gray hair to its original color.—Advertisement.

YOUR SICK CHILD IS CONSTIPATED! LOOK AT TONGUE

No matter what ails your child, a gentle, thorough laxative should always be the first treatment given. If your little one is out-of-sorts, half-sick, isn't resting, eating and acting naturally—look, Mother! see if tongue is coated. This is a sure sign that it's little stomach, liver and bowels are clogged with waste. When cross, irritable, feverish, stomach sour, breath bad or has stomach-ache, diarrhoea, sore throat, full of cold, give a teaspoonful of "California Syrup of figs," and in a few hours all the constipated poison, undigested food and sour bile gently moves out of its little bowels without griping, and you have a well, playful child again.

Mother can rest easy after giving this harmless "fruit laxative," because it never fails to cleanse the little one's liver and bowels and sweeten the stomach and they dearly love its pleasant taste. Full directions for babies, children of all ages and for grown-ups printed on each bottle.
Beware of counterfeit fig syrups. Ask your druggist for a 50-cent bottle of "California Syrup of figs," then see that it is made by the "California Fig Syrup Company."

UNREFRESHING SLEEP

The woman who is tired out, who aches all over when she starts in the morning, who feels depressed most of the time, needs just the help that Dr. Williams' Pink Pills can give her—new blood and stronger nerves.
The number of disorders that are caused by thin blood is amazing and most women are careless about the condition of their blood. Quickly the nerves are affected and the patient becomes irritable, worried over trifles, does not sleep as well as formerly and is not refreshed by rest. There may or may not be stomach trouble and headache. This is a condition that calls for Dr. Williams' Pink Pills, the non-alcoholic tonic.

Give Dr. Williams' Pink Pills a trial and the first sign of new life will be noticed in your appetite. You will be hungry by meal time. As the blood becomes enriched it feeds and soothes the irritated nerves, sleep becomes sounder and more refreshing, your worries become less, your work lighter. These are some of the things that these tonic pills do. Try them for any trouble caused by thin blood.

The Dr. Williams' Medicine Co., Schenectady, N. Y., will mail free to any woman the booklet "Plain Talks to Women." Your own druggist sells Dr. Williams' Pink Pills.

County Treasurers Should Not Employ a Special Agent

(ASSOCIATED PRESS TELEGRAM)
Columbus, Oct. 2.—Auditor of State Donahy yesterday severely criticized county treasurers who had appointed special agents to collect delinquent taxes. In one case the state auditor found that a county treasurer had paid a man \$960 for the collection of delinquent taxes. Mr. Donahy asserts that it is the duty of the county officials to collect such taxes and not hire special agents for the work.

HOW TO STOP STOMACH TORMENT

Sound Advice From a Well-Known Physician.

Men and women who suffer from what they call Dyspepsia, indigestion or just plain "stomach trouble" usually seek regular relief in the form of some patent pill or tablet, or other artificial digestant. This, experience teaches me, is a serious error. In nine cases out of ten, the distress is caused by the development of acids in the stomach, formed by the fermenting of the food. Instead of a digestant being required, something should be taken to dissolve or neutralize this acidity, when normal digestion will follow as a matter of course. This acid matter is distinctly poisonous and unless it is dissolved, digestion merely carries the mass of fermenting food from the stomach to the intestines, where its poison is absorbed by the blood and carried all over the body.

If all the great army of people who suffer after nearly every meal would make it a point to take a teaspoonful of Bisulphate of Magnesia in a quarter glass of water after each meal, there would be no fermenting of acidity and consequently no distress or discomfort. Sour, acid, gassy stomach, heartburn, belching, bloating, etc., would then be a thing of the past.

"Bismuth" is a physician's prescription. It is inexpensive and can be obtained at any drug store. It is a most useful and such trouble and the best proof of its efficiency is that it will stop the sharpest, biting stomach distress in five minutes after the time it enters the stomach, simply by dissolving the acids that have been formed there. Its action is absolutely harmless.—Advertisement.

Can't Delay Ordering Fall Clothes!

The time for swift change of seasons, with all that it means to the man who guards his health or carefully regards the changes of fashion, is here. Order now, get what you say. It's simply a question of un-surpassed facilities.

A Good Suit or Overcoat to Order At \$15.00

Because our cutting and tailoring departments are organized for the production of higher-price garments and because our goods-getting facilities extend to representative mills that others can not reach. We, the originators of really good \$15 tailoring in this city, make far better clothes, in quality of fabric and fineness of workmanship, than those who solely feature some misleading price.

Prove it by getting samples of goods—prove it by critically comparing finished garments—prove it by asking those who have dealt both elsewhere and here!

Better, of Course, for \$20

Better, because the goods cost more and are worth more—better, because of the greater variety of choice afforded—better, because of more expensive linings and trimmings—better, because of the greater satisfaction that the payment of a higher price inspires.

And Really Fine for \$25

At \$25 we offer fabrics that every other tailor, because of paying more and expecting more and because of his relatively greater expenses, could not tailor and sell for much less than double. You may make your own investigation—we've found the comparison true time and again.

Imported Values, \$28 to \$30

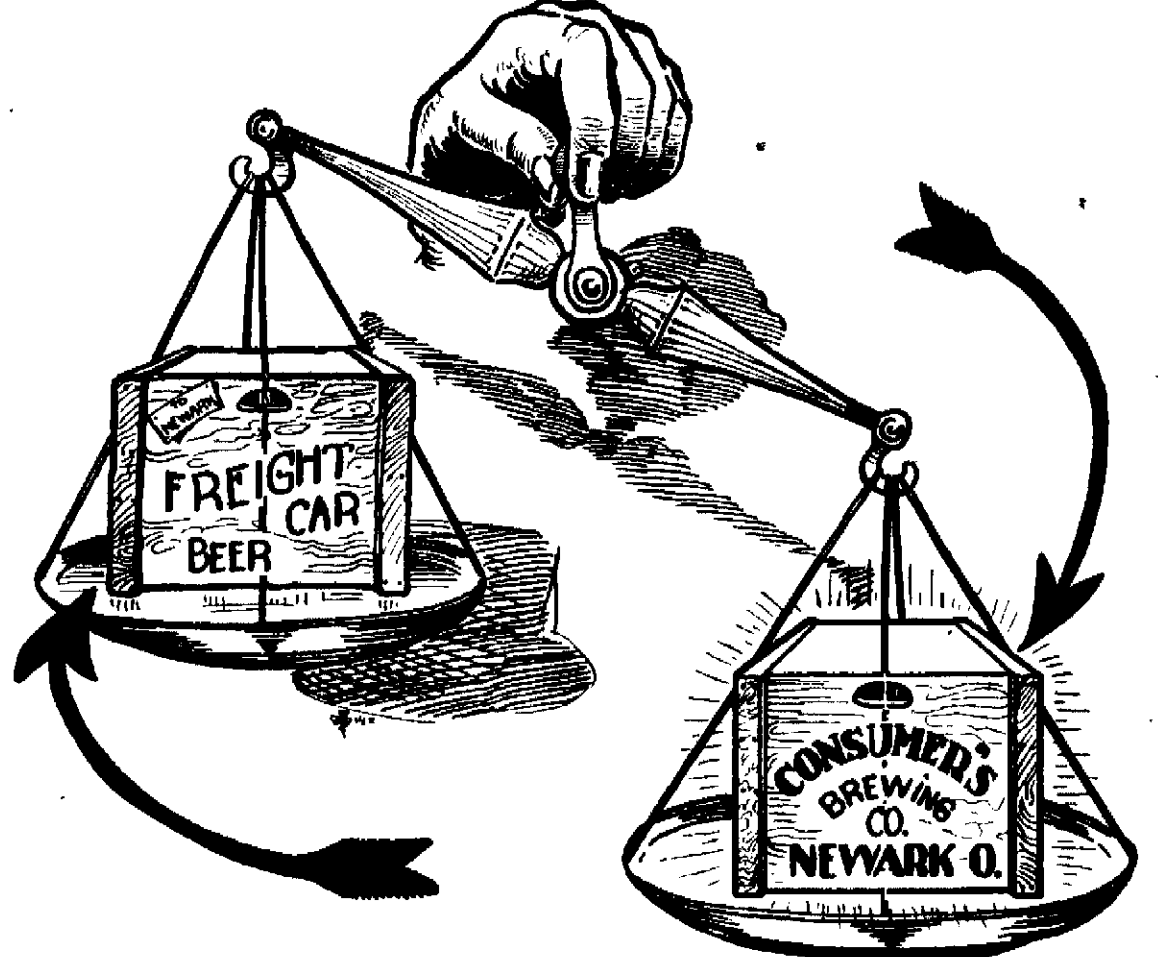

Particularly smart foreign stuffs that fortunately were landed before shipping interferences commenced and that represent values that long years may not duplicate.

Corns Quit, Pains Stop, With "Gets-It"

Quit Plasters, Salves and What-You-After using "GETS-IT" once you will never again have occasion for asking, "What can I do to get rid of my corns?" "GETS-IT" is the first cure, certain corn-ender ever known.

If you have tried other things by the score and will now try "GETS-IT," you will realize its glorious fact. You probably are still sticking on those that won't stay stuck, plasters that shift themselves right onto your corn, contractions that make a bundle of corns to press right down on the corn. Put the tube of "GETS-IT" on that corn in two seconds. The corn is then covered as sure as night follows day. The corn shrinks, blisters, no more. If you think this sounds too good to be true, try it. It is right on any corn, callus, wart or bunion. "GETS-IT" is sold by druggists everywhere. In a bottle, or sent direct by E. Lawrence & Co., Chicago.

Carriers Use Autos.
 All but one of Centerburg's rural letter carriers are using automobiles in the delivery of mail.

Mr. Rusler Improves.
 H. B. Rusler, Johnstown business man who has been so seriously ill for several months, continues to improve. He is now able to be up and around the house.

Prayer Meeting.
 The Union Cottage prayer meeting will be held at the home of Mr. Oscar Mason, No. 1 Conrad avenue. This evening at 7:30. Everybody invited. Come and enjoy a good meeting.

Union Peace Service.
 Rev. Calvin Hazlett of Newark will preach at the Union Peace meeting to be held in the Utica Presbyterian church Sunday afternoon. An offering will be taken and turned over to the American Red Cross society.

Orpheum Theater Pictures.
 An immense and greatly delighted crowd visited the Orpheum theatre last night to see Francis X. Bushman in "The Plum Tree." Manager Siebanoller's new machines project beautiful pictures and Mr. Siebanoller has arranged for a film series that will please the people.

Band Paid Compliments.
 The Buckeye band which furnished the music at the county fair Thursday was the recipient of many compliments for the excellent music rendered. They gave a fine program which included all the late popular airs. The band boys enjoy playing and they are not a bit stingy with their music.

Epidemic Under Control.
 The scarlet fever epidemic at Utica which caused the schools and church to be closed, is controlled and the churches will resume services Sunday. The schools open Monday. Four cases were reported during the epidemic but the prompt action of the health officials prevented a more serious situation.

Death of Sister.
 Mrs. W. C. Adams, residing in the Belmawr apartments, received word on Friday morning announcing the death of her sister, Mrs. J. J. Pitzer at St. Petersburg, Fla. Mrs. Adams had returned from St. Petersburg, but last Thursday and when she left there Mrs. Pitzer was improving so the word of her death came as a great surprise.

Lost Pocketbook.
 F. B. Hurr, representative of the International Harvester company, who was here last night and today, reports the loss of his pocketbook, containing \$45 cash and a \$75 check. Mr. Hurr thinks the purse was stolen while he was in a crowd boarding an auto at 8 o'clock last night. He says it is possible the book was taken from his pocket.

Mr. Hurr thinks the purse was stolen while he was in a crowd boarding an auto at 8 o'clock last night. He says it is possible the book was taken from his pocket.

WITHDRAWAL

OF AMERICAN TROOPS FROM VERA CRUZ POSTPONED UNTIL OCTOBER 11.

At Least, But Exact Time Not Set—Conference at Mexico City Adjourns.

(ASSOCIATED PRESS TELEGRAM)
 Washington, Oct. 2.—American forces at Vera Cruz will not be withdrawn before October 11, it was announced at the war department. Brig. General Funston was given instructions to that effect to allay fears of Mexican civilians employed by the American administration. A steamer will leave Vera Cruz tomorrow for the United States and as there will not be another for a week General Funston asked that he be in a position to assure the populace that in the meantime the American forces would not be withdrawn.
 Officials said today that no exact time had been set for withdrawing the troops but that ample notice will be given so Mexicans and refugees may have an opportunity to leave.

NO FINAL VOTE AT CONFERENCE
 (ASSOCIATED PRESS TELEGRAM)
 Mexico City, Oct. 2.—The general conference called for by the plan of Guadalupe adjourned last night without taking a final vote on the question whether the conference should be postponed to Oct. 5 so that all factions could get together at Aguas Calientes.

The conference meets again late today when a committee consisting of General Obregon, Pesqueria and Sanchez, to which the question was referred will make its report. It is semi-officially stated today that a meeting of all elements at Aguas Calientes is practically assured.
 At the meeting last night General Carranza read a message in which he reviewed his acts as supreme chief of the constitutionalists and reiterated his willingness to abide absolutely by the decision of the general conference regarding the provisional presidency, the calling of General elections and the scope of the reform laws.

BRYAN DISCUSSES THE SITUATION WITH PRESIDENT WILSON

(ASSOCIATED PRESS TELEGRAM)
 Washington, Oct. 2.—Official reports told of the opening of the convention in Mexico City but gave no indication of an outcome.
 Secretary Bryan discussed the situation briefly with President Wilson and later said satisfactory progress was being made.

MEXICAN SOLDIERS SEIZE THOUSANDS OF PESOS FROM MINE

(ASSOCIATED PRESS TELEGRAM)
 Washington, Oct. 2.—Seizure of five thousand pesos by Mexican soldiers from the Rea Del Monte mine, an American property was reported today through foreign consular representatives in Mexico. The money is believed to have been taken by the same band which seized 1,500,000 pesos in which a British corporation was interested.
 Effort are being made through American consular agents to recover the loot.

POLICE COURT ACTIVE PLACE IN FAIR WEEK

The number of cases handled Thursday and Friday in police court might indicate that the crowds attending the county fair might have something to do with the number of arrests. However, the majority of the cases did not include visitors to the fair. A few might have come to the city to see the fair but most of the cases were Newark people.

A Bright Editor.

A Kansas man wrote to his newspaper and asked: "What's the matter with my hens? Every morning when I go to feed them I find some of them have keeled over to rise no more."

To which the editor replied: "They are dead." — Kansas Times.
